DEATH OF EX-PRESIDENT WILSON.

BRITISH TRIBUTE TO HIS MEMORY.

(Renter's Service).

London, February 3.

At 8,55 this morning Mr. Wilson was unconscious and his pulse ver weak. Dr. Grayson remained at Mr. Wilson's home this murning instead of going to his own home for breakfast, as usual.

Ex-President Wilson died at 11.15 this morning, without regaining consciousness. His death was peaceful and painless. Mrs. Wilson and Dr. Grayson were by his bedside. In accordance with a pre-arranged agreement, about a hundred men and women of all creeds gathered in front of Mr. Wilson's residence and prayed shortly before his death.

Mr. Ramsay Macdonald has sent a message to the American nation and Mrs. Wilson, saying he is deeply grieved to hear of the death of the Ex-President. He knows the whole British nation shares his feelings. Mr. Wilson had the fine vision of reason and wisdom, leading Europe to peace and security. He has gone before the fulfilment, but will be recognised as one of the world's' greatest pioneers.

ENTENTE PREMIERS' LETTERS.

DIFFERENCES CAN BE OVERCOME.

London, February 3. Mr. Ramsay Macdonald's letter to M. Poincare Says: "Our two ountries have gone through such trying times said by side, and made such sacrifices together in the common cause, that on coming to office I address to you a personal note not only to inform you of the change but also to send greetings and good wishes." I grieve to find so many unsettled points causing us trouble and concern, hand assure you that it will be my daily endeavour to help to; settle them to our mutual benefit. You have your public opinion! and I mineryou have your national interests to conserve and protect and I mine. Semetimes at first they may conflict, but I am sure by strengous action and goodwill the conflicts can be settled and policies devised in pursuit of which France and Britain can remain in hearty co-operation. We can be frunk without being hostile, and defend our countries' interests with mt enmity; thus the Entente can be much more than nominal, and France and Britain can advance together to establish the peace and security of Entope."

A Sympathetic Reply.

M. Poincare replied: "I am much touched by your kind letter, ! and hope wholeheartedly that your efforts for the welfare of your country will be successful. You may be sure the nigmory of the trues of common trial and sacrifice, when the bonds inciting your country to mine were knit together, are ever present in my mind. I deeply regret that several questions important to our two countries are not yet settled. Like you, I shall do my utmost to solve them by a friendly agreement to our mutual advantage. If we have to take account of public opinion in our respective countries and safeguard national interests. THE TEA DOME OIL CASES.

EARLIER TELEGRAMS.

The White House has issued a statement withdrawing Rear-Admiral Gregory, head of the Bureau of Yards and Docks, as one of the prosecuting counsel named by President Coolidge in the oil cases, in consequence of a statement by Mr. Doheny to the Senate Committee that he had been employed with the oil companies. In the course of Mr. Doheny's examination to-day, it transpired that a promissory note alleged to have been given by Senator Fall-did not bear a signature. Witness declared the note had been torn in two by Mrs. Doheny to prevent the witnesses' executor from suing Senator Fall for the amount if Mr. Doheny died. It also transpired that Senator Fall informed Mr. Doheny by long distance telephone on Nov. 29, 1921, that he would accept a loan for the improvement of his ranch. The torn

note was dated Nov. 31, 1921. Mr. Doheny added that besides Rear-Admiral Gregory the former members of the Cabinet, Messrs, MacAdoo, Garrison and Lane had been employed in his oil companies, and that Mr. MacAdeo was still looking after his company's interests in Mexico. -Reuter's American Service. Los Angeles, Feb. 3. Mr. William G. MacAdoo, who is proceeding to Washington to the bedside of his father-in-law, ex-President Wilson, has requested

permission to testify before the investigating committee. He declares

that he was never employed or consulted regarding oil leases in the

United States. His advice to the Doheny companies was solely related

to Mexican business .- Reuter's American Service. Senator Fall was brought before the Senate Investigating Committee despite the protests of his medical and legal advisers. He refused to reply to questions concerning the cil leases or his relations with Mr. Sinclair Doheny. He gave his reasons therefor, firstly that the authority of the Investigating Committee had expired, secondly, in view of Congress directing the institution of court action any answers might tend to incriminate him. The Committee adjourned .--

Reuter's American Services Washington, Feb. 3. The White House has issued a statement withdrawing not Rear-Admiral Gregory but T.W. Gregory. The statement said that in view of Mr. Doheny's evidence the employment of T. W. Gregory as Government Counsel in the oil cases might be an embarrassment for Mr. Gregory and perhaps be otherwise improper."-Renter's American Service

Washington, Feb. 3. Startling stestimony was given at to-day's hearing before the House of Representatives Naval Committee which is enquiring, into the oll leases. Rear-Admiral Robinson, Engineer-in-Chief of the Navy, stated it was the possibility of Japan, perhaps in conjunction with Great Britain, invading the Pacific Coast of the United States that prompted the Navy Department to arrange with the Doheny interests for the construction of fuel tanks at Pearl Harbour, Hawaii. The Admiral pointed out that the contract with Mr. Doheng was negotiated before abrogation of the Anglo-Japanese Alliance, and therefore prior to the Washington Disarmament Conference which 'removed' many causes of friction on the Pacific. Rear-Admiral Robison, emphatically banging his fist on the table, added: "If we hold a base near Honolulu no enemy will conquer the west coast."-Reuter's American Service.

Washington, Feb. 3. President Coolidge has appointed ex-Senator Pomerene of Ohio as counsel for the prosecution, vice Mr. Gregory .- Reuter's American Service.

EX-PRESIDENT WILSON.

There was no improvement in ex-President Wilson's condition at four this afternoon. The whole country is stunned at the news that he is at death's door. The patient's hourly condition is the sole topic everywhere. He slept intermittently to-day, while the doctors watched by his bedside. Many rumours of his death have been in circulation. and flags on Government buildings were once mistakenly displayed at half-mast. His personal physician, Rear-Admiral Grayson, called other physicians into consultation, but there was little to be done except to make the patient comfortable. No opintes were administered, but some stimulants have been used. Ex-President Wilson has been plucky throughout, and told his physician that it was better that he should go than to remain a hopeless invalid. Mrs. Wilson is constantly at his bedside, bearing up bravely. Other relatives, including his daughters, were summoned. It is believed his malady originated as a result of some indiscreet choice of food. It appears that Dr. Grayson was summoned from a hunting trip and found Mr. Wilson up, looking after his correspondence. He ordered him to bed immediately. Further stomach trouble continued, accompanied by violent bleeding at the nose. The ex-President finally collapsed. Washington, Feb. 3.

Early this morning ex-President Wilson's condition remained grave. His physicians assert that he gradually lost ground. Hells still conscious and free from suffering. His temperature is normal. His physician, Admiral Grayson remained at his bedside all night long .- Renter's American Service.

New York, Feb. 3. Messages from Washington show that ex-President Wilson's life is slowly ebbing away. His death is expected at any moment. The ex-President has been conscious nearly the whole time. The latest bulletins state that his heart action is weakening, and he is in a state of almost complete prostration.

Many London Sunday editorials refer to his passing in most sympathetic terms; The Observer concludes an article: "History will honour him as a man who gave the world a new conception of its changed self, and a new conscience in international affairs." The Sunday Express describes him as "the greatest American

since Lincoln." He was a failure like Moses, because he was not allowed to lead Europe into the Promised Land .- Reuter's American

RUSSIAN RECOGNITION AND TRADE.

"London, Feb. 3. Mr. E. F. Wise, an ex-civil servant, who largely negotiated the original Anglo-Russian trade agreement, "interviewed said that aiready a big trade existed between Russia and Great Britain, some eighty to a hundred ships regularly carrying grain from Russia to Great Britain and west Europe. The establishment of a new atmosphere of friendliness would promote a big increase in Anglo-Russian trade, giving Great Britain big advantages over her rivals .- Reuter.

London, Feb. 3.

. The Government's note to Russia, is regarded as bearing the impress of diplomatic cautiousness, and at the best is only meeting the Bolsheviks half way. It is considered that the recognition will amount to little or nothing of value to Russia unless - subsequent negotiations can be concluded whereby money and credit obtainable is recognised. The Government will likely insist on the carrying out of their due obligations by the Bolsheviks .- Reuter.

.The Temps, as an example of moderate political opinion, regards the Note to Russia as proof of the continuity of British policy and the truly national character of Mr. MacDonald's cabinet. It hopes subsequent negotiations will succeed, because of the very favourable repercussive effects they will have for France. Big Order for Aeroplanes. An order for seven heavy reconnaissance aeroplanes, seven fighter reconnaissanes aeroplanes, and possibly some school machines in addition, is to be placed by the Dutch Indies Military Air Service through the Dutch Ministry of War, and both British and French firms are named as to be asked to tender under competitives conditions as to performance. In order to protect the aviation firms each of these firms is to be given an advantage of 4,000 points, after which the merits of the respective aircraft competing are to be decided on a system of points. As the total of points is not stated it remains to be seen whether the initial handicap of the foreign rivals is entirely probitive of success; but it is a point in our favour that British aircraft are held in high regard in the Dutch East Indies. France is steadily pursuing her policy of aeroplane penetration of North Africa, and is discussing how to link up the Toulouse-Dakar line with South Ameria by seaplane services, while efforts are also being made to extend to the East with Italian co-peration.

"THE LADY OF THE SEA." There recently arrived at the German port of Emden from Petrograd a Soviet steamer whose fourth officer is a woman. The Germans, sceptical of the lady's qualifications, subjected her to a technical examination-from which she emerged triumphant. She is entitled, they decided, to her certificate of seawomanship.
